

TPC Double Impact

Distance 4 yards:

Start position and time:

- Handgun loaded, compressed low ready position (handclap position)
- Safety is not engaged, DA/SA handguns – hammer cocked
- Par time: 3 sec.

Procedure:

- On signal engage both targets with one shot only (no makeup shots are allowed)
- 5 repetitions – left to right and right to left (alternating). Shooter chooses which direction to start with.
- The shooter needs to perform the entire repetition within 3 sec. par time
- Distance between targets – 1 yard

Scoring:

- Time measured is the transition split only (time between the first and second shot)
- Both shots must land inside the scoring zone (at least touching the dotted line)
- Failure to land inside the scoring zone or a negative score will result in a 0 score for that particular repetition.
- Score per repetition is calculated as total points / transition time (Ex. 10/0.40 = 25 Hit Factor)
- End score is the total of the Hit Factors divided by 5
